

Shivalik Silica

High-Grade Silica for High-End Performance

About Us

M/s Shivalik Silica is a premier producer of high-quality silica sand. Our operations boast one of the highest production volumes of silica sand in Rajasthan. The **Shivalik Silica mine spans an extensive lease area of approximately 49.56 hectares**, encompassing significant reserves of high-grade silica sand.

Through comprehensive **core-drilling activities**, we have **meticulously identified specific zones within the mine containing quartzite with a silica concentration exceeding 98%**. This premium-grade material is exclusively supplied to our sister firm for the specialized production of ramming mass.
